Amada Miyachi Europe Acquires MacGregor Welding Systems

Acquisition expands resistance welding product offerings, service expertise

[Amada Miyachi Europe](http://www.amadamiyachieurope.com) announces that it has acquired MacGregor Welding Systems of Suffolk, England, a leader in the design and manufacture of precision micro joining equipment. MacGregor Welding Systems products include DC micro resistance welding equipment, micro pulsed arc, percussive arc and other welding technologies. With this acquisition, Amada Miyachi Europe is able to expand its range of products and services to meet the complete joining needs of its global customer base.

“Acquiring MacGregor creates an excellent opportunity to grow the business through the effective collaboration of the Amada Miyachi Europe and MacGregor teams and to further develop new resistance welding and other welding products that meet the demands of modern industrial customers worldwide,” said David Fawcett, Group CEO and President Amada Miyachi America and Amada Miyachi Europe.

MacGregor Welding Systems produces resistance welding equipment. Additionally, the company designs and produces automatic and semi-automatic integrated resistance welding and related process systems, ranging in size and complexity from single work cells to fully-integrated, multi-station production line systems. The company’s in-house expertise in mechanical engineering, electronics design, software, and power system control engineering enables it to build customized equipment to meet each customer’s specific requirements.

“We believe that the MacGregor Welding Systems has developed superior engineering capabilities, excellent customer relationships and a differentiated line of products which complement our line of business,” Fawcett added.

About Amada Miyachi Europe

Amada Miyachi Europe is a leading manufacturer of equipment and systems for Laser Welding, Laser Marking, Laser Cutting, Resistance Welding, Hermetic Sealing and Hot Bar Reflow Soldering & Bonding. We customize our products around specific micro-joining applications for all our customers around the globe. Amada Miyachi Europe product markets include medical devices, battery, automotive, solar industry, electronic components and aerospace. We are an ISO9001 certified company. Contact Amada Miyachi Europe at infode@amadamiyachi.eu. Find out more about the company’s products and services at www.amadamiyachi.eu.
